TECHNICAL SKILLS

- Programming Language
 - Java
 - JavaScript
 - C
 - Python
- Web Development
 - HTML
 - CSS
 - Java Script
 - Type Script
 - React.Js
 - NextJs
 - Express
 - NodeJs
- Database
 - MongoDB
 - Firebase
 - MySQL
 - PostgreSQL
- Cloud & DevOps
 - AWS
 - Git
 - GitHub

PROFILE

A highly motivated and detail-oriented Information Technology undergraduate with a strong passion for software engineering and problem-solving. Possessing a solid academic foundation and hands on experience with modern development tools, I am eager to contribute to real-world projects and continuously expand my technical expertise. Known for my collaborative mindset, leadership abilities, and adaptability, I thrive in team-oriented environments. I am actively seeking a software engineering internship where I can apply my knowledge, embrace emerging technologies, and contribute meaningfully to innovative IT solutions.

EDUCATION

UNIVERSITY OF MORATUWA

2023 - PRESENT

B.Sc. (Hons) in Information Technology

- **GPA: 3.69/4.00**

H/Vijayaba National College, Hungama

2012 - 2021

- Complete G.C.E Advanced Level in 2021(Physical Science Stream)
- Chemistry - A, Physics - A, Com. Maths - B
- **Z-Score : 1.7080**
- Complete G.C.E Ordinary Level in 2017(with 7 A passes)

PROJECTS

Travel Booking Sri Lanka - Full Stack developer

Contributed to the development and deployment of a production-ready tourism web application for booking tour packages, hotels, and transport services, delivered to a real customer.

- **Developed** the Vehicle Service Module, including vehicle registration, admin approval, booking management, and email confirmations.
- **Implemented** role-based access control for tourists, admins, hotel owners, and vehicle owners.
- **Built** real-time bookings, custom tour requests, and business registration workflows with dynamic media storage via Firebase.
- **Designed** the Landing Page and multiple Navigation Bars for role-based user experiences.
- **Deployed** the application on Render with a custom domain (travelbookingsrilanka.com).

Tech Stack: MERN Stack, TypeScript, Tailwind CSS, Firebase (for storage), Render (for hosting), Custom Domain

- IDE'S
 - VS Code
 - IntelliJ
 - CLion
 - Visual Studio
- Project Management Tool
 - Jira

SOFT SKILLS

- Problem Solving
- Leadership
- Time Management
- Teamwork
- Effective Communication
- Critical Thinking

VOLUNTEERING

- IEEE member at student branch in university of Moratuwa (since 2024).
- Organizing committee member of Moraxtreme 9.0 Organized by IEEE (2025).
- Company Coordinator of Career Fair 2025 Organized by Faculty of Information Technology.

LANGUAGES

- English
- Sinhala (Native)

Simsyn Customer Portal - Full Stack developer

Contributed to the development of a secure and scalable customer portal for Simsyn, streamlining collaboration with external partners.

- **Built** a Notepad module (similar to Microsoft Office) for creating, editing, and downloading documents.
- **Developed** the Contact Management module linking partner company employees with Simsyn staff.
- **Implemented** Profile Editing functionality for user account management.
- **Created** a Knowledge Base Chatbot to help users access project information efficiently.

Tech Stack: MERN Stack, Amazon S3 Bucket (for storage),Ant Design

My portfolio (mscweerasinghe.tech)

- Developed a modern, responsive portfolio using Next.js, Three.js, Tailwind CSS, and Framer Motion. Features include 3D visuals, animated sections, and canvas effects. Integrated a custom AI chatbot for user engagement and Sentry for real-time error tracking. Built with performance, scalability, and clean UI/UX in mind

Tech Stack: Next.js, TypeScript, Tailwind CSS, Aceternity UI, Three.js, Springboot, Vercel (for hosting)

Coin Prosorter(Level 01 Hardware Project)

- Designed and developed a smart coin sorter and counter system equipped with biometric authentication and real-time monitoring. It sorts and counts coins using IR and PIR sensors and secures access via a fingerprint module
- The hardware is powered by ESP32, interfacing with a custom-built web application using HTML, CSS, JavaScript, and PHP, with Firebase handling real-time data storage and remote access
- Collaborated in building the **frontend interface** and **integrating Firebase** for live data tracking and remote control functionality

Tech Stack: ESP32, IR Sensor, PIR Sensor, Fingerprint Module, HTML, CSS, JavaScript, PHP, Firebase

ACHIEVEMENTS & PARTICIPATIONS

- Selected for All -Island Mathematics Olympiad (2017)
- MoraExtreme 9.0 (2024) - Participant - Organized by IEEE University of Moratuwa
- AlgoXplore 1.0 (2024) -Participant - NSBM Green University
- SpiritX (2025) - participant - Organized by MoraSpirit University of Moratuwa
- FIT- CodeRush (2025) - 11th Place - Organized by INTECS - University of Moratuwa

EXTRA CURRICULAR ACTIVITIES

- Volleyball player , Hungama Vijayaba National Collage.
- Volleyball player, University of Moratuwa.
- Cricket player, Hungama Vijayaba National Collage.
- Member of Drama society, Hungama Vijayaba National Collage.
